Dear Mr. Weisberg,

I'am a 23 year old Canadian and I've been researching the JFK assasination for three years. I have just finished reading your latest work 'Case Open'. The only word I can think of to describe it is brilliant. It is the best book I have read so far in my quest for the truth to what really happened that tragic day in Dallas. I have also read Mr. Posner's book 'Case Closed'. I can not believe that such a piece of distorted literature could be published without a disclaimer on the cover. As you pointed out in your book 'Case Closed' is filled with falsifications and very sketchy evedience. In my mind Mr. Posner should have called his work 'The Warren Report II'. I would like to thank you for taking your time to prove that 'Case Closed' is far from what the title presents.

Here in Canada, material on the assasination is very hard to come by.

I have so far read 42 books on the case, and can not get ahold of anymore here in my city. I would like to purchase, all of your works on the JFK assassination. It would be greatly appreciated if you could write me and infora me on which would be the easiest method of payment for yourself. I'm very eager to read your material and learn as much as possible from your years of research. In 'Case Open' you wrote that you are in failing health, I hope you are able to recover with no complications, It would be a great loss for all involved in the search for the truth if you were unable to recover fully. It has been 30 years of doubt and deception, not only are American's sick and tired of being lied too, but the whole world in general. John Kennedy was the greatest leader of all time, and I believe as I'm sure you do as well, that we owe it to him and his memory to uncover the whole truth. I'll be looking forward to hearing from you and purchasing

your books. For I'm sure they will hold a mountain of knowledge and information. Here's hoping best of health to you sir, and all the best of luck in the future.

Sincerly yours,
Derrick Dunham
